

Zesterra

SUPPLEMENT FEED FOR HORSES

This feed contains added Selenium at 8 mg/kg

GUARANTEED ANALYSIS

Crude Protein actual		8.00%	
Crude Fat, minimum		0.30%	
Crude Fiber maximum		0.25%	
NDF maximum		0.60%	
Calcium (Ca) actual	2.28%	Iron (Fe) actual	430 mg/kg
Phosphorus (P) actual	1.06%	Manganese (Mn) actual	1,050 mg/kg
Sodium (Na) actual	2.53%	Zinc (Zn) actual	1,600 mg/kg
Magnesium (Mg) actual	2.24%	Fluorine (F) maximum	80 mg/kg
Potassium (K) actual	4.23%	Vitamin A minimum	374,000 IU/kg
Sulfur (S) actual	0.56%	Vitamin D3 minimum	52,000 IU/kg
Cobalt (Co) actual	40 mg/kg	Vitamin E minimum	880 IU/kg
Copper (Cu) actual	530 mg/kg	Biotin minimum	44 IU/kg
Iodine (I) actual	40 mg/kg		

INGREDIENTS: A list of ingredients used in this feed may be obtained from the manufacturer

DIRECTIONS FOR USE:

- Provide one tub for every 5 to 15 animals.
- Place tubs in areas where they can be easily accessed.
- Allow a 2-week minimum acclimation period to establish average consumption rate.
- Average consumption should be between 0.1 and 0.375 kg per head, per day.
- Make sure horses always have access to clean water and salt.

MANAGEMENT TOOL NOTE: Placement of tubs can influence grazing distribution in large pasture situations. Place tubs in areas of under-utilization in order to entice horses to specific locations within a pasture.

INTRODUCTORY PERIOD: During the first week of use, place tubs within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary. Move the tubs closer to increase consumption, further away to decrease consumption. **DO NOT PROVIDE STARVED ANIMALS FREE ACCESS TO THIS SUPPLEMENT.**

IMPORTANT: Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity and seasonal weather conditions. If over-consumption occurs for more than two weeks despite tub repositions, remove tubs and evaluate the overall feeding program.

CAUTIONS: 1) Directions for use must be carefully followed. 2) Do not use this feed in combination with other feeds containing added selenium. 3) Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect infested feed to animals as it may cause illness, performance loss or death. 4) Do not feed this supplement to sheep. High levels of Copper may cause copper toxicosis in sheep.

Lot: Z-001

Date: April 4 2021
